

Cluster of Rhinovirus cases at Castle Peak Hospital

The following is issued on behalf of the Hospital Authority:

The spokesperson for Castle Peak Hospital made the following announcement today (May 15):

Twelve patients (aged 27 to 69) in a female adult psychiatric ward presented with respiratory symptoms since May 11. Appropriate viral tests were arranged for the patients and their test results were positive for Rhinovirus. The patients concerned are being treated under isolation with stable condition.

Admission to the ward has been suspended and restricted visiting has been imposed. Infection control measures have already been stepped up according to established guidelines. All other patients in the ward are under close surveillance.

The cases have been reported to the Hospital Authority Head Office and the Centre for Health Protection for necessary follow-up.
