

Companies House Direct (CHD) and WebCheck to close by February 2021

We are closing Companies House Direct (CHD) and WebCheck by February 2021.

We encourage users to use our [Companies House Service \(CHS\)](#) instead. We are continuously expanding the functionality on CHS, and it now includes:

- company snapshot reports
- alphabetical search
- ordering facility for certificates, certified documents and missing images

CHS is a fully accessible service and has already replaced the majority of the functionality provided by CHD and WebCheck.

Following the government response to the [Corporate Transparency and Register Reform consultation](#), we've published [guidance on dissolved records to outline our approach](#).
