

Corporate report: Implementing geological disposal: annual report, April 2016 to March 2017

In its November 2010 response to the House of Lords Science and Technology Select Committee's report, Radioactive Waste Management: a Further Update (March 2010), the UK Government committed to producing an annual report to Parliament, setting out progress in relation to the management of higher activity radioactive waste.

The seventh annual report sets out progress made in relation to the management of higher activity radioactive waste for the period April 2016 to March 2017.
