

COVID-19 Vaccination Programme statistics

The COVID-19 Vaccination Programme has been implemented for the 39th day since February 26, 2021.

So far, about 577 200 doses of COVID-19 vaccines have been administered for members of the public (please see Annex 1). Among them, about 487 000 persons have received their first dose, with about 330 400 persons receiving the Sinovac vaccine and about 156 600 persons receiving the BioNTech vaccine. About 90 200 persons have received their second dose, with about 83 100 persons receiving the Sinovac vaccine and about 7 100 persons receiving the BioNTech vaccine.

In the last 24 hours ending at 8pm today (April 5), the following vaccination and booking figures were recorded:

- (i) About 2 900 persons received their first dose of the Sinovac vaccine, including about 2 600 persons vaccinated at eight Community Vaccination Centres (CVCs) and about 300 persons at private doctors and clinics participating in the programme;
- (ii) about 6 600 persons received their second dose of the Sinovac vaccine, including about 5 200 persons vaccinated at the CVCs and about 1 400 persons at private doctors and clinics;
- (iii) about 5 200 persons received their first dose of the BioNTech vaccine at 21 CVCs, and about 6 500 persons received their second dose of the BioNTech vaccine;
- (iv) the overall percentage of people who have received the Sinovac vaccine at the eight CVCs is about 96 per cent; while the overall percentage of people who have received the BioNTech vaccine at the 21 CVCs is about 95 per cent; and
- (v) about 2 500 persons have made online bookings for receiving their first and second doses of the Sinovac vaccine, while about 12 800 persons have made online bookings for receiving their first and second doses of the BioNTech vaccine.

In the last 24 hours ending at 0.00am today, there was one case of an ambulance transfer to a hospital. The person was discharged after treatment (please see Annex 2).

As background information, in the last 24 hours ending at 0.00am today, there were 40 cases of stroke or myocardial infarction that required admission to the Intensive Care Unit, Acute Stroke Unit and Cardiac Care Unit of public hospitals. The state of new cases admitted to the wards concerned

is provided as a cross reference to enhance fuller public understanding of cases of the kind recorded on vaccine recipients.
