## **How much is available for a Defence Innovation Loan?**

The total of £10 million is available for the Defence Innovation Loan competition this year, of which comprises £5M from the Defence Innovation Fund and £5M from Army.

You can apply for a loan between £250,000 and £1.6 million with a below market interest rate of 7.4% per annum. This loan can cover up to 100% of eligible project costs to aid the commercialisation of the solution and overall term of the loan must not exceed 7 years.

Please note, [Innovate UK](#) will carry out the Defence Innovation Loan credit evaluation and you will enter into a loan agreement and security agreement

with Innovate UK Loans Ltd.

[Read the full DASA competition document for more information on Defence Innovation Loans.](#)

## Who can apply for a Defence Innovation Loan?

To apply for a Defence Innovation Loan you must:

- be a UK registered SME
- intend to exploit the results in the UK or overseas to make a significant and positive impact on the UK economy and/or productivity
- give evidence that your business is suitable to take on a loan

Please note, individuals, academic institutions, research organisations and large companies are not eligible for innovation loans.

## What kind of innovation will be considered for a loan?

Defence Innovation Loans are open to innovative ideas to improve the defence of the UK. Your innovation must be mature at TRL 6 or above, to ensure the solution can be commercialised within the time scale of the Innovation Loan. There also must clearly be evidence of a defence need for the innovative solution.

### Two tracks of funding

The Defence Innovation Loan has two tracks of funding, covering general Defence solutions and more specific solutions for the Army.

#### Track 1: Defence Innovation Fund (£5M)

Track 1 is open to innovative ideas to improve the Defence of the UK.

#### Track 2: Army Innovation Fund (£5M)

Track 2 is open to innovations which align with any of the priority areas below and targets an Army end user.

Priority areas include:

- Army industrial engagement framework decision-support
- directed energy weapons
- human performance enhancement
- information advantage
- robotics and autonomous systems
- and more...
