Juncker Plan: EUR 25 million to support innovative software systems

The [Juncker Plan](#) has backed a EUR 25 million agreement between the European Investment Bank (EIB) and MariaDB, a Finnish software development company, to support the development and commercialisation of innovative database systems. The European Fund for Strategic Investments (EFSI), the central pillar of the Juncker Plan, was a crucial factor in making this loan agreement possible. European Commission Vice-President Jyrki **Katainen**, responsible for Jobs, Growth, Investment and Competitiveness, said: *"Developing new, innovative products requires sustained investment. I am delighted that the Investment Plan is unlocking finance to facilitate MariaDB's development programme, that includes expanding their engineering team as well as increasing international sales and marketing operations. Focus on innovation and research as well as reaching out to new markets will help the company succeed in a highly competitive market."* The Juncker Plan is now expected to trigger around EUR 4 billion in investment in Finland and EUR 183.5 billion across Europe. La Commission lance un point de rencontre virtuel "Génération Erasmus"

Il y a 30 ans naissait le programme Erasmus, grâce à la volonté très forte

des décideurs européens, des étudiants et des universités. Depuis, une génération Erasmus est née, composée de neuf millions d'anciens étudiants, apprentis, volontaires, professeurs et éducateurs. Aujourd'hui, la Commission Européenne lance [un point de rencontre](#) virtuel pour cette génération, afin de construire maintenant et ensemble le futur de ce programme après 2020. Le Commissaire Tibor **Navracsics**, chargé de l'Education, la Culture, la Jeunesse et du Sport a déclaré: *"Erasmus+ est l'un des outils les plus puissants de l'UE. Pour continuer à toujours améliorer sa pertinence et son succès, il est indispensable de le développer en coopération avec l'ensemble des acteurs concernés. Ceci implique non seulement la 'Génération Erasmus', mais aussi les organisations actives dans le domaine de l'éducation, de la formation et de la jeunesse. Cet espace en ligne donne aux citoyens européens une occasion concrète de construire l'Erasmus+ et l'Europe de demain."* Pour rendre les échanges d'idées aussi interactifs que possible, la plateforme offre une palette de fonctionnalités différentes : stimuler la discussion grâce au partage d'idées, de vidéos et de documents, débattre et commenter les suggestions proposées, voter pour ses idées préférées et planifier des événements et des groupes de discussions partout en Europe. Mergers: Commission clears acquisition of Vanderlande by Toyota

The European Commission has approved under the EU Merger Regulation the acquisition of Vanderlande of the Netherlands by Toyota of Japan. Vanderlande manufactures and sells automation equipment for airports, warehousing and parcel handling. Toyota manufactures and sells automobiles, engines, compressors for automotive air-conditioners, foundry parts, electronic components, textile machinery, logistics services and non-fixed-installed and non-automated material-handling equipment. The Commission concluded that the proposed acquisition would raise no competition concerns because the companies are not active in the same markets and because market shares in all vertically linked markets remain limited. The operation was examined under the simplified merger review procedure. More information will be available on the Commission's [competition](#) website, in the [public case register](#) under the case number [M.8391](#). Mergers: Commission clears the creation of a joint venture by STRABAG and EVN

The European Commission has approved under the EU Merger Regulation the acquisition of joint control by STRABAG SE ("STRABAG") and EVN AG ("EVN"), both of Austria, over the joint venture Projektgesellschaft Geoenergie Bayern Projekt Garching a.d. Alz GmbH & Co. KG, of Germany. The joint venture holds the rights for the development of the deep geothermal energy project "Bruck" in Garching a.d. Alz in Bavaria, which will further develop and generate and supply electricity and district heating to third parties. Moreover, it is expected to develop other deep geothermal projects. STRABAG is active worldwide in all segments of the construction business, especially in structural, construction and civil engineering, as well as road construction. EVN is mainly active in the exploration and production of oil and gas, gas

storage and distribution of electricity, gas and district heating. The Commission concluded that the proposed acquisition would not raise competition concerns given that the joint venture has no, or negligible, actual or foreseen activities within the European Economic Area. The transaction was examined under the simplified merger review procedure. More information is available on the Commission's [competition](#) website, in the public [case register](#) under the case number [M.8455](#). Concentrations: la Commission autorise l'acquisition par AXA et la Caisse des dépôts et des consignations de deux locaux commerciaux

La Commission européenne a approuvé, en vertu du règlement européen sur les concentrations, l'acquisition du contrôle en commun par AXA et la Caisse des dépôts et des consignations, toutes deux basées en France, de deux lots de copropriété à usage de commerce au sein d'un centre commercial situé dans la région Provence-Alpes-Côte d'Azur, en France. AXA est un groupe d'assurances global actif dans le secteur de l'assurance vie, santé et d'autres formes d'assurance ainsi que dans la gestion d'investissements. La Caisse des dépôts et des consignations est un établissement public réalisant des activités d'intérêt général telles que la gestion des fonds privés auxquels les pouvoirs publics souhaitent apporter une protection particulière et des activités ouvertes à la concurrence dans les secteurs de l'environnement, de l'immobilier, de l'investissement et du capital investissement ainsi que des services. La Commission a conclu que l'acquisition envisagée ne soulèverait pas de problème de concurrence compte tenu de son impact très limité sur la structure du marché. La transaction a été examinée dans le cadre de la procédure simplifiée du contrôle des concentrations.
