

Greece begins a new chapter following the conclusion of its stability support programme

Greece has successfully concluded a three year European Stability Mechanism (ESM) stability support programme with its place at the heart of the euro area and European Union secured. The successful conclusion of the programme is a testament to the efforts of the Greek people, the country's commitment to reform, and the solidarity of its European partners. A total of €61.9 billion in loans have been provided to Greece under this stability support programme on the basis of implementation of a comprehensive and unprecedented reform package. This stability support programme took a coordinated approach to tackle longstanding and deep-rooted structural issues that contributed to Greece experiencing an economic crisis. These transformative reforms have laid the foundations for a sustainable recovery, putting in place the fundamental conditions needed for sustained growth, job creation and sound public finances in the years to come. European Commission President Jean-Claude **Juncker** said: *"The conclusion of the stability support programme marks an important moment for Greece and Europe. While their European partners have demonstrated their solidarity, the Greek people have responded to every challenge with a characteristic courage and determination. I have always fought for Greece to remain at the heart of Europe. As the Greek people begin a new chapter in their storied history, they will always find in me an ally, a partner and a friend."* A full press release can be found [here](#). Mergers: Commission clears the creation of a joint venture by Porsche and Schuler

The European Commission has approved, under the EU Merger Regulation, the creation of a joint venture by Dr. Ing. h.c. F. Porsche AG ("Porsche") of Germany, belonging to the Volkswagen group and Schuler AG of Germany belonging to the Andritz group. The joint venture will build and operate a metal press plant in Germany. The Volkswagen group is active globally in the manufacture and supply of motor vehicles and their components through several companies including Porsche, as well as related financing and insurance services. Schuler is active in forming technology and offers presses, automatization solutions, tools, know-how and services worldwide to the metal and automotive industry. The Commission concluded that the proposed acquisition would raise no competition concerns given the joint venture's limited activities within the European Economic Area. The transaction was examined under the simplified merger review procedure. More information is available on the Commission's [competition](#) website, in the public [case register](#) under the case number [M.9007](#).
