

Declaration by the High Representative, on behalf of the European Union, on Libya

The European Union, witnessing the continued escalation of violence in Libya, renews its call for a truce, as the United Nations did on the eve of Ramadan with the European Union's backing.

The European Union demands that all parties act responsibly and immediately cease the fighting all over Libya, which is first and foremost affecting civilians, including migrants, and is placing them at even greater risk. It urges all parties having committed to a truce and a negotiated ceasefire to follow-up on these commitments. It also reminds the parties that they must respect international law, including international humanitarian law, and that those who violate it will be held accountable.

The European Union urges all parties to protect civilians, including migrants and refugees, by allowing and facilitating a safe, rapid and unimpeded delivery of humanitarian aid and services to all those affected.

The European Union remains determined to see the UN arms embargo in Libya fully respected. It recalls that Operation EUNAVFOR Med Irini, approved by the Council on 31st March, aims at implementing the UN arms embargo in line with the relevant UNSC resolutions through naval, aerial and satellite assets. It underlines that all efforts must be made to ensure the full and effective implementation of relevant UNSC resolutions, also through the land and air borders with Libya.

The European Union calls on all parties to the conflict in Libya to cooperate without further delay, with a view to implement a lasting ceasefire confirming as soon as possible their agreement on the draft discussed at the joint military committee held in Geneva on 23rd February 2020, within the framework of the joint military committee.

The truce must proceed hand in hand with an immediate resumption of UN-brokered talks between the parties, and in full respect of the Libyan Political Agreement. There is no alternative to an inclusive political solution reflecting the conclusions of the Berlin conference, as confirmed by UNSC Resolution n°2510.

In order to facilitate the quick resumption of political talks among the Libyan parties, the EU hopes that a successor to Ghassam Salame as Special Representative of the Secretary-General and Head of the United Nations Support Mission in Libya can be appointed as soon as possible and urges all States to cooperate with the UN in the political process

The European Union reiterates its commitment to the sovereignty, unity and

stability of Libya and to international law.
