

Detailed guide: Darwin Initiative: Fellowship Awards

Updated: Updated the guidance under the 'How to apply' heading to make it clear applications need to be submitted through the Flexigrant application portal.

Fellowship funding is aimed at building capacity in developing countries.

The Fellowship programme is intended to support Fellows to draw on UK technical and scientific expertise in the fields of biodiversity and sustainable development to broaden their knowledge and experience.

You can read more about a successful fellowship award in this [case study](#).

How to apply

You will need to apply online for Round 25 Darwin Initiative Fellowship projects through the [Flexi grant application portal](#).

Before applying, please read the [Guidance notes for applicants \(round 25\)](#) and the [The Darwin initiative: Fellowship award Flexi-Grant user guide](#).

Once you have read the guidance, complete the Darwin Fellowship Round 25 application form on the [Flexigrant application portal](#). For drafting purposes, you may find the

[Darwin Fellowship Round 25 application form](#)

(MS Word Document, 154KB)

useful.

When to apply

The timetable for Round 25 Darwin Fellowship Awards is set out below:

- application process opens: Tuesday 22 May 2018
- deadline for applications: Tuesday 13 November 2018
- expected notification of successful projects: February 2019
- expected start date for successful projects: From July 2019

Who can apply

Applications for Fellowship funding should come from an organisation (the Lead Organisation) and not an individual. There should be a named individual within the Lead Organisation responsible for the application, called the Project Leader. The host organisation where the individual will carry out the training or research must be in the UK.

The Lead Organisation:

- must have expertise in natural resource management
- can be either a public or private sector organisation
- should provide experts from within the organisation with a proven track record and at the forefront of their discipline(s) to work closely with or supervise the Fellow. This expertise is typically expected to be a minimum of 10 years of relevant experience

Darwin Fellowships will support promising individuals who:

- have a link with a recent or current Darwin Initiative project or
- are currently involved directly in the implementation of the key biodiversity conventions and agreements listed above

Further information is available in the guidance.

Funding available

Eligible costs (depending on the nature of the Fellowship) include a monthly subsistence, Lead organisation expenses, travel costs and fees for academic qualifications. Further information on Darwin Fellowship awards can be found in the Darwin Round 25 Guidance.
