

DH's Woman Health Centres resume normal service

In view of the latest developments of the COVID-19 epidemic situation, the Department of Health (DH) today (September 2) announced that starting from September 6, services provided by three Woman Health Centres under the Family Health Service of the DH will resume as normal.

For enquiries, please contact the clinics concerned during service hours. Details are available at www.fhs.gov.hk/english/main_ser/woman_health/woman_health.html.

â€‹The DH will continue to implement stringent infection control measures at service units including all attending clients and visitors must put on masks and have their body temperatures checked.
