

# [“Discovering HZMB” roving exhibition to start this Saturday](#)

The Highways Department and the Hong Kong Institution of Engineers will jointly hold the "Discovering HZMB" roving exhibition from this Saturday (July 7) to August 24 to enhance public understanding of the Hong Kong-Zhuhai-Macao Bridge (HZMB) project.

The HZMB is the longest bridge-and-tunnel sea crossing in the world. The length from Hong Kong Port to Zhuhai Port and Macao Port is approximately 42 kilometres, comprising the 12km Hong Kong Link Road and the approximately 30km Main Bridge. Including the approximately 13km Zhuhai Link Road, the total length is 55km.

Through various forms of display panels, physical models and interactive installations, the exhibition will showcase the construction methods, engineering challenges and design characteristics of the HZMB Main Bridge and the Hong Kong section. A three-dimensional backdrop will also be set up at most of the venues to enable members of the public to take photos with an HZMB scene.

The exhibition venues and dates are as follows. Admission is free.

July 7 to 18  
Hong Kong Science Museum

July 21 to 24  
MTR Hong Kong Station

July 30 to August 3  
Fortune Metropolis, Hung Hom

August 10 to 13  
Ko Shan Theatre

August 16 to 19  
Tuen Mun Town Hall

August 21 to 24  
Hong Kong City Hall
