

Discovery Days 2020 – Short Presentations from the Cutting Edge

The next Discovery Days event from the University of Dundee will take place on Thursday 9th and Friday 10th January. The venue is the Main Lecture Theatre, Dalhousie Building, Old Hawkhill.

You can listen to the university's newest professors and award-winning teachers and students, as they share the ideas that inspire them. Everyone is welcome, including school pupils, members of the public and university staff and students.

As part of Discovery Days 2020, there is also holding the annual public session with the University's Court. This is a unique opportunity to hear from and pose questions to the university's governing body.

Refreshments and lunch will be available. The event will close with a free drinks reception.
