

[Drug-related deaths and mortality in Europe: update from the EMCDDA expert network](#)

EMCDDA, Lisbon, July 2019

Summary

This publication provides an update on drug-related deaths in Europe, presenting and analysing the latest data and trends in drug-induced deaths and overall mortality among high-risk drug users in the European Union and beyond. It draws on contributions from specialists representing more than 40 countries at the latest meeting of the EMCDDA expert network on drug-related deaths in November 2018 as well as information provided by European countries in the annual reporting exercise.
