

E3 and EEAS joint statement on Iran: 2 July

In a joint statement France, Germany, the United Kingdom and the European External Action Service said:

The Foreign Ministers of France, Germany, the UK, and the High Representative are extremely concerned at Iran's announcement that it has exceeded the Joint Comprehensive Plan of Action stockpile limit for low enriched uranium. The International Atomic Energy Agency has confirmed this information.

We have been consistent and clear that our commitment to the nuclear deal depends on full compliance by Iran. We regret this decision by Iran, which calls into question an essential instrument of nuclear non-proliferation.

We urge Iran to reverse this step and to refrain from further measures that undermine the nuclear deal. We are urgently considering next steps under the terms of the JCPOA in close coordination with other JCPOA participants.
