

Education Bureau to hold Information Expo on Multiple Pathways 2024

â€‹The Information Expo on Multiple Pathways 2024 (Info Expo), organised by the Education Bureau (EDB), will be held from 10am to 6pm on May 10 and 11 (Friday and Saturday) at Rotunda 2 of the Kowloonbay International Trade & Exhibition Centre.

A spokesman for the EDB said today (May 3), "The Info Expo aims to provide the latest information on multiple pathways for senior secondary school students, parents and teachers; and to equip students with better knowledge on different articulation and career plans. Around 30 institutions and organisations will set up exhibition booths to provide information on locally accredited post-secondary programmes (including programmes eligible for various government subsidy schemes as well as vocational and professional education and training programmes and applied degree programmes), the Diploma of Applied Education programmes, as well as relevant online platforms such as the Information Portal for Accredited Post-secondary Programmes, the Electronic Advance Application System for Post-secondary Programmes, the Concourse for Self-financing Post-secondary Education, and the Qualifications Framework".

In addition, Hok Yau Club, the Hong Kong Federation of Youth Groups and the Hong Kong Young Women's Christian Association will offer studies and career guidance services to students. There will also be talks on multiple pathways, preparation and strategies for articulation to post-secondary education, and experience sharing by post-secondary students. Institution and industry representatives will also provide first-hand information about various programmes and career development.

Admission is free and prior registration is not required. There are new interactive games at the EDB booth this year. Participants who complete designated tasks will receive a gift while stocks last.

For details of the Info Expo (such as talk schedule and exhibitor list), please visit the event website (www.cspe.edu.hk/en/Resources-CareerGuidance-MultiplePathwaysExpo.html).
