The Hong Kong Electrical and Mechanical (E&M) Trade Promotion Working Group, formed by the Electrical and Mechanical Services Department (EMSD) and the E&M trade, held the "E&M GO!" orientation ceremony 2023 today (September 26) to welcome young people joining the E&M trade.

Speaking at the ceremony, the Under Secretary for Home and Youth Affairs, Mr Clarence Leung, said that the Government is taking forward various large-scale infrastructure projects at full steam, bringing immense opportunities for the E&M industry. He hoped the EMSD and the industry would continue to promote the development of youth affairs and encourage more young people to join the industry to realise their full potential.

The Director of Electrical and Mechanical Services, Mr Eric Pang, said that the E&M industry is full of promising development opportunities. He encouraged every young person to create more possibilities and a new chapter for the E&M industry.

Established in 2012, the Hong Kong Electrical and Mechanical Trade Promotion Working Group comprises 19 E&M-related organisations, including government departments, public organisations, education institutes, public utilities, trade associations and unions. It aims to promote and enhance the professional image of the E&M industry and attract more young people to join the industry.
