

[eNews from GAD: issue 39, Spring 2020](#)

After more than 10 years as our flagship newsletter, this is our last quarterly edition of eNews before its relaunch in April as an exciting monthly round-up of news stories, case studies, blogs and insights. Fittingly therefore, this edition starts with a spotlight on GAD's communications strategy – discussing the role eNews plays, our achievements so far, and providing a flavour of how things will look in the future.

Following this, we have a feature article discussing how the work of our staff transfer specialists helps achieve a smooth transition of public pension rights for employees who are moving within the public sector, or whose jobs have been outsourced to the private sector.

Our last article considers what it takes to be a learning organisation, and how GAD is working to foster a learning ethos within both our individuals and our department.
