

[Press release: Youngsters help give fishery a boost](#)

The Environment Agency has released 1,500 fish into a recently re-established fishery this week to give stocks a pre-Christmas boost and encourage angling.

Lockwood Beck reservoir, south of Guisborough, opened earlier this year to coarse anglers and they've since been catching fish such as roach and perch.

Now the Environment Agency has stocked bream, tench and crucian carp to provide more variety for anglers and encourage participation at the fishery.

The fish have all been bred at the Environment Agency's fish farm near Calverton, which is solely funded by rod licence money.

The Environment Agency's Phil Rippon with Ali Jamaliour and John Speight.

Young anglers help stocking

To mark the fish stocking on Tuesday a group of young anglers from Eastern Ravens Trust in Stockton-on-Tees received expert angling tuition from the Angling Trust and had the opportunity to see the new fish being released into the reservoir.

Eastern Ravens Trust is a registered charity based in the Community Zone, North Shore Academy, which provides open access youth activities to young

people aged 10-18 in the most deprived ward in the borough alongside supporting isolated and disadvantaged children, young people and families.

The owners of the reservoir, Northumbrian Water Ltd, provided support on the day and are committed to providing the venue in the future for organised coaching events for anglers aged under 16.

Happy with the development

Phil Rippon, Fisheries Technical Specialist from the Environment Agency in the North East, said:

We are happy to help with the development of Lockwood Beck fishery, working with the Angling Trust and Northumbrian Water to encourage more participation in angling.

The reservoir is an excellent venue for future coaching events as well as providing a resource for local anglers. The fish provided by us will help to support the fish stocks and provide a more interesting variety of species.

The Angling Trust's David Munt with Amie James.

Great news for fishing

Don Coe, Leisure Operations Manager at Northumbrian Water, added:

This is a fantastic way to get young people interested in fishing and we're very pleased to be supporting the Angling Trust with their activity.

Also, the stocking carried out by the Environment Agency will also enhance the appeal of Lockwood Beck for anglers of all ages and experience, so this is great news for fishing in the area.

Angling is a great way for everyone to keep healthy and enjoy the natural environment. All rod licence income is used to find work to protect and improve fish stocks and fisheries.

Anyone who wants to go fishing needs to buy a rod licence. A full annual licence costs £30 (short term and some concessionary licences are also available) and are available online at <https://www.gov.uk/fishing-licences/buy-a-fishing-licence>

National Statistics: Monthly sea fisheries statistics September 2017

The monthly landings statistics will be released at 9.30am on the 4th Friday of each month, or the next working day if this is a bank holiday.

Open consultation: Proposed catch limits for December 2017

The Marine Management Organisation (MMO) sets monthly catch limits for quota species to ensure the UK stays within the overall limit set by the EU. These limits apply to all under 10 meter vessels and the over 10 meter vessels that are not in a co-operative (Producer Organisation).

Please contact the MMO if you have any comment to make about the suggested catch limits which will be put into force on 1 December 2017.

Comments to be received no later than 9am 29 November 2017.

Email FMTConsultations@marinemanagement.org.uk

Telephone 0208 0 269 097

The MMO will regularly consult industry on monthly or other catch limits and will, wherever possible, ensure that any representations are taken into account when setting such limits. The MMO reserve the right to alter catch limits and / or close fisheries without prior notice or consultation in the event that such actions are necessary and expedient for the regulation of sea fishing.

Notice: RM20 4AL, Procter & Gamble

Product Supply (UK) Limited: environmental permit issued

The Environment Agency publish surrenders that they issue under the Industrial Emissions Directive (IED).

This decision includes the permit and decision document for:

- Operator name: Procter & Gamble Product Supply (UK) Limited
- Installation name: London Plant
- Permit number: EPR/BT8864IT/S004

Notice: LE17 6NJ, Welland Waste Management Limited: environmental permit draft decision advertisement EPR/DB3102GV/V003

The Environment Agency consults the public on certain applications for waste operations, mining waste operations, installations, water discharge and groundwater activities. In some cases they also consult on draft decisions for environmental permits. The arrangements are explained in its [Public Participation Statement](#)

These notices explain:

- the Environment Agency's proposed decision and the reasons and considerations on which they've based this
- additional relevant information available since the application was advertised
- any information or guidance provided by the Secretary of State relevant to the application
