

Notice: Bawtry Farms Limited: application made to abstract water

The Environment Agency consults the public on certain applications for the abstraction and impoundment of water.

These notices explain:

- what the application is about
- which Environment Agency offices you can visit to see the application documents on the public register
- when you need to comment by

Transparency data: HMNB Devonport maintenance dredging variation

On 6 March 2017 the Marine Management Organisation (MMO) announced a new disposal site was open for marine licence applications for the disposal of dredged material. The MMO has now varied the Defence Infrastructure Organisation's (DIO) licence, which licences the navigational maintenance dredging in and adjacent to Her Majesty's Naval Base (HMNB) Devonport, Plymouth.

The variation has changed the disposal site from Rame Head South (PL031) to Plymouth Deep (PL035). Due to increased regulatory burden surrounding the Rame Head South disposal site and in light of the continued requirement for dredging and disposal operations, the MMO has been working with the main users of the site in leading a disposal site characterisation study to identify an optimal, sustainable alternative site for long-term dredged material disposal operations within the River Tamar and Plymouth Sound area. Further information on the [South West Disposal Site Characterisation Project](#).

The marine licence for the maintenance dredge at HMNB Devonport allows DIO to complete one maintenance dredge campaign of the dockyard's critical areas between now and March 2017. The dredge is required in order to maintain the operational capacity of the Naval Base.

The MMO has now determined the application and a copy of the licence and the supporting assessments have been attached for reference.

Further Information

All marine licence applications are available from the [marine licensing](#)

[News story: Licence variation for South West disposal](#)

This follows the announcement that the new disposal site is open for marine licence applications for the disposal of dredged material.

The Defence Infrastructure Organisation's (DIO) licence has now been [varied to change disposal activities to Plymouth Deep](#). The variation changed the disposal site from Rame Head and conditions referencing Rame Head South have been amended.

No changes to the dredging methodology have been made. The marine licence for the maintenance dredge at HMNB Devonport allows DIO to complete one maintenance dredge campaign of the dockyard's critical areas between now and the end of March 2017.

[Press release: East coast surge prompts people to sign up for flood warnings](#)

More than 2,000 people in Lincolnshire and Northamptonshire signed up for flood warnings in just two days when flooding threatened the east coast in January.

The number of local registrations jumped by 7 per cent, Environment Agency figures have shown.

Nearly all the new sign-ups occurred on Thursday 12th and Friday 13th January 2017 when forecasters predicted that high tides combined with weather

conditions could cause widespread coastal flooding.

Fortunately the event passed without flooding any homes in either county, but the Environment Agency is reminding everyone to sign up, as figures show that only 18 per cent of the total number of properties at risk in the area are fully registered.

Anyone can check whether they are at risk and register for warnings by calling Floodline on 0345 988 1188. You can also make sure your contact details are up-to-date and choose how you'd prefer to be contacted – by mobile, text, landline or email – if flooding was expected.

Ben Thornely, Area Incident Manager, said:

We're glad to see people listened to our advice during the surge. It means another 2,000 families will have early warning should flooding be expected – early warning that could give them extra time to protect themselves and their homes.

That's why we're encouraging everyone to sign up now – before the next surge or storm.

The service is free, and it's the most simple, specific and timely way to find out when you're at risk. You can tell us how best to reach you with vital information that's updated every 15 minutes.

All it takes is a simple phone call or you can visit www.gov.uk/flood to find out more.

Notes for editors:

- In January, the amount of fully-registered properties increased by 7 per cent, from 28,500 to 30,500.
 - However, only 18% (30,500) of the 169,500 of properties at flood risk in Lincolnshire and Northamptonshire are registered with Floodline.
 - People who proactively contact Floodline to provide their contact details and preferred method of contact are considered to be fully-registered.

Press release: No profit for waste couple

The operator and the landowner of an illegal waste site in an Essex village have been ordered to pay a total of £66,493

Chelmsford Magistrates' Court heard that 14,700 tonnes of inert waste was stored on land behind a residential address known as Gean Tree in Great Horkesley north of Colchester 'grossly' breaching a waste exemption and planning rules.

George Nicholas James Dench pleaded guilty to running the illegal site and failing to comply with an enforcement notice to remove the waste. He was ordered to pay a total of £32,895 in fines and costs by Chelmsford Magistrates' Court on Monday (6 Mar).

Annette Ismay Williams, who owned the land pleaded guilty to allowing the illegal waste site to run and to failing to clear the land under an enforcement notice and has to pay a total of £33,598 fines and costs.

Mrs Miriam Tordoff, prosecuting for the Environment Agency, told the court the waste had been deposited there over 2.5 years.

Williams lives at the address with her partner and their son George Dench who sought out companies to dump the waste there. He was paid £64,704.

Mrs Tordoff said only certain relatively low risk activities can be covered by an exemption which sets out conditions that must be met at all times. These include not risking human health nor the environment, not causing a nuisance with noise or odours and not adversely affecting the countryside or places of special interest.

The exemption registered by Williams allowed the use of certain types of inert waste in construction and the limit for waste soils and stones was 1,000 tonnes in any 3 years. That target was reached in the first month.

A further exemption allowed the treatment of up to 5,000 tonnes of waste in any 3 years, providing it was also used on the same site and only stored for a year.

Dench told investigating officers he had brought the soils to the site to repair the bank of a lake there. Williams said she just did the admin work. Both said they did not know how many tonnes the exemption allowed for.

Dench said he had not taken in the soils for financial gain as he was now bankrupt and he had not taken in any more since.

Mrs Tordoff told magistrates that Environment Agency officers had advised and written to the 2 saying the site needed to be cleared and operated properly.

Between September 2012 and March 2015 the Agency received 34 complaints about activities at the site.

After the hearing Environment Agency Enforcement Team Leader Lesley Robertson said:

We advised the defendants several times against accepting any more soils at the site but they continued to take it.

The site is in a village close to other homes and operations there affected people living nearby.

Councillor Simon Walsh, Essex County Council Cabinet Member for Environment and Waste, said:

This case is an example to show landowners that risk taking is not acceptable, whether it is a risk that concerns human health or the environment.

Owning a piece of land means accepting a responsibility to the surrounding area and all that resides there, be it business, homes or wildlife.

Notes for Editors:

Breakdown of costs and fines:

Dench: EA offence – fined £14,353 plus £8,103 (a share of the full costs)
ECC offence – fined £9,568 plus £750 costs

Williams: EA offence – fined £14,775 plus £8,103 (a share of the full costs)
ECC offence – fined £9,850 plus £750 costs
