

Call for Humber communities to give views on tidal flood risk

People around the Humber are being asked to complete a survey to help organisations working on a new tidal flood risk strategy understand views and priorities.

Abstracting water? Think before you drill

With the number of boreholes being drilled in the Westcountry without permission, abstractors are reminded to contact the Environment Agency for advice.

Push to better understand sources affecting Bridlington water quality

Environment Agency starts weekly spot sampling to help inform improvements

Dye project to identify fish migration on the Alne

Anglers in Warwickshire are being encouraged to get involved in an Environment Agency survey to identify how fish migrate along the River Alne.

Thames Barrier Annual Closure

The Thames Barrier, which protects 125 square km of London from tidal flooding, is to carry out its annual full tide test closure on Sunday 29 September.
