

## **New £15 million national isotope facility for earth and environmental science**

Five of the UK's leading research institutions – the British Geological Survey (BGS), the Scottish Universities Environmental Research Centre (SUERC), the University of Bristol, the University of Oxford and the Centre for Ecology & Hydrology (CEH) – have joined forces to create a new national isotope facility.

---

## **Strangles symposium success**

Eradicating strangles – the UK's most prevalent infectious equine disease – could become a reality if more people were inspired to take action.

---

## **Jay to remember for students**

One of Britain's best-known food critics has met with hospitality students at Scotland's Rural College.

---

## **Press release: Magistrates order 15 anglers to pay almost £9,000 for illegal fishing activity**

Fifteen people caught fishing illegally in Norfolk, Essex and Suffolk have been ordered to pay fines, costs and victim surcharges totalling nearly £9,000.
