

National Statistics: Household Energy Efficiency National Statistics, headline release April 2018

This release includes measures installed under the Energy Company Obligation (ECO) and the Green Deal schemes. It also includes further analysis and geographical breakdowns of ECO measures, ECO delivery costs, estimated carbon and energy savings from measures installed and the supply chain. These statistics are provisional and are subject to future revisions.

These notices explain:

- what the application is about

- which Environment Agency offices you can visit to see the application documents on the public register
 - when you need to comment by
-

Official Statistics: Woodland Carbon Code Statistics: data to March 2018

This release provides quarterly statistics on projects registered under the Woodland Carbon Code. The Woodland Carbon Code is a voluntary standard, initiated in July 2011, for woodland creation projects that make claims about the carbon they sequester (take out of the atmosphere). All projects must be placed on the Register of UK Woodland Carbon Projects. Their claims about potential carbon sequestration are validated by an independent certification body. Validated projects are then verified on a regular basis to confirm the progress of carbon sequestration.

Eileen named Senior “Veep”

Professor Eileen Wall has been named Senior Vice President of the British Society of Animal Science (BSAS).
