

[Detailed guide: Ministry of Justice and the environment](#)

Sustainable development

Sustainable development is about applying economic, social and environmental thinking to an issue and paying particular attention to the long-term consequences. It can be thought of as a long-term, integrated approach to achieving quality of life improvements whilst respecting the need to live within environmental limits.

Embedding sustainability

Embedding Sustainable Development in our business and operations is a shared responsibility within MOJ. The Chief Operating Officer acts as MOJ's Sustainability Champion and chairs the Senior Sustainability Board which includes representatives from a wide range of business units, our agencies and arms-length bodies. It is responsible for developing and overseeing the implementation of our sustainability strategy and supporting policy, standards, rules and guidance.

Sustainable operations

MOJ's Sustainable Operations Strategy sets out how we embed environmental sustainability throughout our estate, operations and procurement activity.

As the second largest estate in government we play an important role in ensuring that the government meets its [Greening Government Commitments](#). Energy, water and waste are managed to deliver a lower carbon, more resource efficient estate whilst reducing our operating costs and delivering value for money. Within our procurement processes and contracts, we are ensuring that there are specific sustainability clauses and measurable KPIs.

We have developed a range of sustainability strategies and policies for our staff and supply chain to follow:

- [Sustainable Operations Strategy](#)
(PDF, 347KB, 18 pages)
- [Carbon and Energy Reduction Strategy](#)
(PDF, 386KB, 22 pages)
- [BREEAM Policy](#)
(PDF, 202KB, 9 pages)

•

[Biodiversity Policy](#)

(PDF, 208KB, 12 pages)

Adaptation to the impacts of climate change

MOJ is working towards increasing climate resilience and maintaining the operational capacity of the estate in an ever-changing climate. We participate in cross-Government Climate Change Adaptation activity.

The effects of climate change, such as flooding and overheating, are likely to become an increasingly important consideration, particularly on our custodial estate. We are embedding climate resilience in our new Prison Estate Transformation Programme. Planning for future changes will minimise future costs and damage caused by the effects of climate change.

Biodiversity and ecology

MOJ's estate is one of the largest and most diverse across government, with a wealth of priority species and habitats reflecting a broad, dynamic and biologically diverse landscape. MOJ's Biodiversity Policy supports our work towards restoring our [Sites of Special Scientific Interest \(SSSIs\) to a favourable condition](#).

We have 10 sites that border or fall within a SSSI:

- HMP Coldingley, Woking – Bisley common Bagshot Heath SSSI
- HMP Dartmoor, Yalverton – Dartmoor National Park
- HMP Frankland, Durham – Brasside Ponds SSSI
- HMP Haverigg, Cumbria – Duddon Estuary SSSI
- HMP Hewell, Redditch – Hewell Park lake SSSI, Listed Parkland Landscape
- HMP North Sea Camp, Boston – The Wash
- HMYOI Portland and HMP The Verne, Isle of Portland SSSI
- HMP Prescoed, Usk – Cilwrgi Quarry SSSI
- Snaresbrook Crown Court, London – Epping Forest SSSI

We value the importance of conserving and, where operationally feasible, restoring our SSSIs and biodiversity significant sites. We are also taking steps to alleviate pressures on protected species, whilst ensuring we manage our priority habitats and landscapes based on a landscape scale ecosystem approach.

MOJ operates an Ecology network comprising volunteers, biodiversity champions and third sector partnerships from some of the UK's major wildlife societies and trusts. This network operates a national wildlife award scheme across the HMPPS estate, which recognises community support, restorative justice and creative learning and skills for custodial and non-custodial offenders, whilst supporting offending rehabilitation programmes.

Communities and social engagement

All staff are encouraged to take an active role in volunteering in the community. MOJ works with voluntary, community and social enterprise organisations to deliver a range of services, particularly within offender management and increasingly through 'payment by results'. This is an example of the Government working in partnership with the third sector to achieve common goals and outcomes for the benefit of communities.

MOJ delivers a range of training and development opportunities for staff in partnership with organisations such as the Prince's Trust and National Council for Voluntary Organisations (NCVO).

MOJ is also committed to supporting the government's [Giving White Paper](#) which requires departments to:

- help make giving time and money to the third sector as easy and compelling as possible.
- give better support to organisations that provide and manage opportunities to give.

MOJ is committed to recognising the equality and diversity of its people and ensuring that staff are treated fairly and with respect without any discrimination; and has a wide range of number of equality and diversity networks in prisons and probation establishments.

Increasing social inclusion and enabling social mobility is a priority for MOJ. MOJ's Schools Outreach Programme involves volunteers working with pupils in schools who are from less advantaged backgrounds. The Programme was developed in November 2016 to increase awareness, build confidence and enhance the career aspirations of young people from a range of backgrounds as they transition from school to employment.

MOJ Schools Outreach Programme won the Championing Social Mobility Award at the Civil Service Diversity and Inclusion Awards in October 2017.

Heritage and Historic buildings

MOJ manages a diverse range of heritage and historic estate including courts, prisons, probation facilities and heritage estate on behalf of the Home Office. It has over 400 historic properties of which there are 335 buildings of historic interest on 148 sites. These include courthouses, churches, moats, towers, bridges, prisons, mansions, cottages, workshops, ancient monuments, and WWII war memorials.

The oldest buildings are former houses or other buildings attached to modern courts or prisons, e.g. the houses fronting Kings Lynn Crown court and the medieval barns at HMP Prescoed and HMP Durham. The oldest purpose designed justice building still in use is Derby Magistrates' court of 1659, which has a modern court building wrapping around it.

Among our heritage sites are:

- The 'Usk Roman Site', an open area around HM Usk
- The Victorian Fortress at HMP Rochester
- The Grade II Octagonal central office building at HMP Brixton
- The RAF Coltishall, monument located within the former World War II airfield at HMP Bure
- The Prison Chapel, HMP Durham is a Grade II site
- HMP Lancaster, Royal Courts of Justice and the Central Criminal Court, Old Bailey are all listed as Grade I sites
- Parts of the Prison Service College, Newbold Revel Rugby, including its H shaped plan, and gate are Grade II

Several other sites, including houses, forecourt walls, statues, a garden temple, and a water tower are included in the Register of Parks and Gardens of Special Historic Interest in England are Grade II listed.

It can sometimes be difficult to incorporate sustainability measures when making significant alterations to heritage estate due to the kind of materials and construction required and some planning restrictions. We aim to ensure that adequate standards of care are maintained by:

- Regular engagement with Heritage England and development of best practice in refurbishing heritage estate
- Regular surveys of the heritage estate from which we can identify opportunities for sustainable development
- Quinquennial Inspection are carried out to all historic properties to a standard format to:
 - Understand the general condition of the fabric.
 - Highlight areas of maintenance to be prioritise if there are any building at risk.
 - Recommendations for further detailed investigation.
 - Review repair or maintenance works previously carried out.

Sustainable construction

Sustainable construction is about being more resource efficient and reducing whole life costs, such as by:

- Using low environmental impact products and materials;
- Managing and reducing waste through effective design and construction;
- Providing resilience and flexibility in design, construction and operation.

MOJ policy requires that we use the Government Buying Standards (GBS) for [New Build, Construction Projects and Refurbishment](#), to ensure that each project incorporates sustainable construction throughout the project lifecycle.

MOJ uses the application of the [Building Research Environmental Assessment Method](#) (BREEAM) to assist in the creation of a fit-for purpose, less costly and more sustainable estate.

Sustainable procurement

MOJ's Sustainable Procurement policy is to ensure the incorporation of sustainability into all procurement activities to achieve long-term value for money. Associated programmes include:

- embedding specific sustainability clauses into all future estate contracts
- a whole life costs policy (i.e. production, in-use and disposal)
- ensuring procurement staff receive appropriate sustainability training

We comply with relevant [Government Buying Standards](#) when purchasing goods and services.

Sustainable development goals

MOJ's primary contribution to the UN Sustainable Development Goals is the implementation of Goal 16 i.e. the promotion of peaceful and inclusive societies for sustainable development, the provision of access to justice for all, and building effective, accountable institutions at all levels. MOJ will also contribute as relevant to the implementation of the wider set of goals.

[Professor an excellent choice](#)

A noted professor in livestock genetics at Scotland's Rural College has been appointed to the Research Excellence Framework (REF) Panel 2021.

[Notice: CB8 9PS, R G Boyce Limited: environmental permit application advertisement](#)

The Environment Agency consults the public on certain applications for waste operations, mining waste operations, installations, water discharge and groundwater activities. The arrangements are explained in its [Public Participation Statement](#)

These notices explain:

- what the application is about

- how you can view the application documents
- when you need to comment by

The Environment Agency will decide:

- whether to grant or refuse the application
- what conditions to include in the permit (if granted)

[Press release: Invasive species week: Floating pennywort a spreading menace](#)

Reports of floating pennywort in our rivers and lakes have reached a record high with 50 tonnes of the invasive plant being removed from the River Thames by the Environment Agency in 2017.

Fast-growing plants like floating pennywort can spread into the wild if they are not properly disposed of when removed from garden ponds ponds. The [Be Plant Wise](#) campaign has handy tips for gardeners on how to prevent this from happening.

Lord Gardiner, the Biosecurity Minister, will see the effects of floating pennywort on Little Britain lake, Hillingdon, and hear about the work being carried out to prevent this plant from spreading further in the River Colne on Monday, 26 March 2018.

He will also see new signs being put up to encourage fishermen and boaters to [Check, Clean, Dry](#) their equipment and clothing to avoid spreading invasive species.

Biosecurity Minister, Lord Gardiner said:

Invasive species pose a real threat to our country's native plants and animals and cost the economy at least £1.8 billion a year.

The Check, Clean, Dry campaign is playing a key role in raising awareness of these threats – helping to prevent new arrivals and stopping the spread of invasive species already here. It is great to see the whole community of river users supporting this programme to protect the future of our precious native species.

As well as following the Check, Clean, Dry advice, people can help by reporting sightings of invasive plants through the [PlantTracker app](#).

Lord Gardiner's visit comes as part of a wider push by government to promote Invasive Species Week. The week is an annual awareness-raising campaign organised by the GB Non-Native Species Secretariat (NNSS) and Defra to get members of the public thinking about simple steps they can take to stop the spread of invasive species which threaten Britain's plants and animals.

Find out more on [non-native species](#).

Below are the themes for Invasive Species Week, which runs until 29 March 2018.

- Monday 26 March – Ornamental plants. [Be Plant Wise](#) and raising awareness of invasive plants.
- Tuesday 27 March – Hitchhikers. Information on the ways that recreational water users, field workers and anyone out in the countryside can help to prevent the spread of INNS, in particular promoting [Check Clean Dry](#).
- Wednesday 28 March – Exotic pets. Owners are asked to make sure they never release pets, or allow them to escape, into the wild.
- Thursday 29 March – #getINNSvolved – on the last day of Invasive Species Week tell us how you are getting #getINNSvolved.

[Press release: Animal welfare enhanced by new code for meat chickens](#)

Updated: Updated code link

[A welfare code for meat chickens](#) has been updated today as part of a programme of reforms to safeguard and enhance the welfare of animals.

Strengthened statutory guidance is now in place for meat chicken keepers on how to meet the needs of their animals and improve their welfare.

This welfare code has been updated to reflect the very latest advice from vets and animal husbandry developments, as part of a programme of reforms to safeguard and enhance the welfare of animals, the Minister for animal welfare, Lord Gardiner announced today.

Minister for Animal welfare Lord Gardiner said:

We have some of the highest animal welfare standards in the world and are going further in a number of areas, including by raising maximum sentences for animal cruelty to five years and introducing mandatory CCTV in abattoirs.

This code was carefully consulted on with industry experts, and uses the most recent scientific and veterinary advice to ensure this clear guidance provides the best advice to owners and keepers to help ensure and enhance the high welfare standards of their animals.

The updated meat chicken code incorporates guidance to reflect new regulations in force since publication of the previous code, including:

- Specific provisions on staff training
- Stocking density, and
- Follow-up at slaughterhouses

Máire Burnett, Technical Director from British Poultry Council, said:

We welcome the new statutory code of practice for welfare of meat chickens and meat breeding chickens that reflects the high welfare standards followed by British poultry meat farmers, breeders and veterinarians. The new code is intended to help all those who care for meat chickens and meat breeding chickens to practise good biosecurity and maintain welfare standards required to comply with legislation.

The British poultry meat sector is committed to continuous improvement and will carry on following welfare science as it progresses. We look forward to continue working with Defra to further enhance welfare codes for turkeys and ducks to reflect industry best practice.

The updated code also provides more detailed guidance on biosecurity, leg health and enriching the environment for chickens.

The code will be used by enforcement bodies including [Animal and Plant Health Agency](#) inspectors and local authorities when investigating allegations of poor welfare to look at whether animal welfare standards are being met.
