

National Statistics: Historical statistics notices on UK milk prices and composition of milk, 2018

Updated: Added historical statistical notice for July 2018.

This publication gives previously published copies of the monthly National Statistics publication on UK milk prices and composition of milk that showed figures for 2018. Each publication gives the figures available at that time. The figures are subject to revision each month as new information becomes available.

The latest publication and accompanying data sets can be found [here](#).

Most milk produced in the UK is bought by dairies (registered 'milk purchasers') for processing. Defra runs a monthly survey in England and Wales to collect information on the volume, value and protein content of milk purchased from farms. Similar surveys are run in Scotland and Northern Ireland. Additional information is collected by the Rural Payments Agency (RPA) on the protein and butterfat content of the milk. The UK average farm-gate milk price, protein content and butterfat content is then calculated.

National Statistics: Historical statistics notices on poultry and poultry meat production, 2018

Updated: Updated with statistic notice, August 2018 figures.

This publication gives previously published copies of the National Statistics publications on poultry and poultry meat production for 2018. Each publication gives the figures available at that time. The figures are subject to revision each month as new information becomes available

Included are the number of chicks placed and eggs set by United Kingdom hatcheries. The number of birds placed each month shown give an indication of

future poultry meat and egg production. The number of eggs set each month indicates how many birds will be available for placing in future months.

It also includes statistics on the number of poultry slaughtered, average live weights of poultry and poultry meat production in the United Kingdom.

The latest publication and accompanying data sets can be found [here](#).
