

Press release: Boaters reminded – register your vessel or pay the price

- All were prosecuted for keeping their unregistered boats on the River Great Ouse
- They've been ordered to pay more than £6,500
- It brings the total of avoided registration charges recovered by the Agency to £129,000

Register your boat or face thousands of pounds in penalties – that's the message from the Environment Agency for boat owners flouting the law.

The warning comes as 7 boaters have been forced to forfeit more than £6,500 between them for failing to register their vessels for use on the River Great Ouse.

Boat owners are legally required to register any vessel they keep, use, or let for hire on Environment Agency waterways, and to clearly display a valid registration plate. Not doing so can result in penalties including fines and a criminal record.

Lee Eastwood, residing on the Lowena Dew moored at Downham Market, Paul Dale of Tunstall Terrace in Darlington, Darren Beacroft of Mason Gardens in Kings Lynn, Paul Danahar of Ramsey Road in St Ives, Trevor Hewitt of Railway Road in Downham Market, Terry Whitnall of Pitmansfield in Harlow, and Jessica Ibbotson of Spencer Road in Bedford have each been given 28 days to pay up.

The cases were proved at Cambridge Magistrates' Court on 23 August, except for Mr Eastwood's case which was proved at Kings Lynn on the same day, and Ms Ibbotson's case which was proved at Luton Magistrates' Court on 28 August.

Mr Eastwood was ordered to pay £608.79, Mr Dale £878.71, Mr Beacroft £472.49, Mr Danahar £978.98, Mr Whitnall £1,079.99, Ms Ibbotson £535.50, and Mr Hewitt – who owned 2 of the unregistered vessels – had to pay £1,990.99.

So far this year, the Environment Agency has recovered £129,000 in avoided registration charges – funds which are reinvested into maintaining, improving and protecting waterways.

Nathan Arnold, Waterways team leader at the Environment Agency, said:

Our waterways are part of our nation's rich heritage and beauty, and they contribute to our environment, our health and wellbeing, and our economy.

But boaters who break the law by not registering their boats are putting the future of these historic and precious waterways at risk – so we won't hesitate to take action against them.

As well as not contributing their fair share towards the upkeep of waterways, unregistered boats can be unsafe, hazardous to other river users and a pollution risk to the local environment and wildlife.

The Environment Agency looks after 353 miles of navigable waterways in the Anglian network, which includes the Ancholme, Black Sluice, Glen, Welland, Nene, Great Ouse and Stour, as well as associated locks and navigation facilities like moorings, showers and toilets.

More information about boating and waterways, including registering vessels, is available from the [Environment Agency](#). If you suspect a boat is illegal, please contact the EA on 03708 506 506 or email waterways.enforcementanglian@environment-agency.gov.uk.

[Notice: SY4 4JJ, David Davies Resources Ltd: environmental permit issued, EPR/ZP3033JP/V002](#)

The Environment Agency publish permits that they issue under the Industrial Emissions Directive (IED).

This decision includes the permit and decision document for:

- Operator name: David Davies Resources Ltd
- Installation name: Wytheford House Farm
- Permit number: EPR/ZP3033JP/V002

News story: Animal medicines improvement notice: Mallon Veterinary Practice

This notice was issued to Mallon Veterinary Practice as the veterinary practice is not registered with the Royal College of Veterinary Surgeons (RCVS) as a veterinary practice premise, contrary to Schedule 3, Paragraph 8 (1) of the Veterinary Medicines Regulations (VMR).

The improvements required are:

- the premises must be registered with the RCVS as a veterinary practice premise
- evidence of registration must be provided to the VMD

News story: NDA signs cooperation arrangement with JAEA

The NDA is responsible for cleaning up and decommissioning 17 nuclear sites across the UK, including the most complex UK nuclear site at Sellafield in west Cumbria.

JAEA is Japan's research and development institute for nuclear energy, including radioactive waste management, decommissioning and remediation. JAEA's work includes the decommissioning of the Monju fast breeder reactor and the Tokai Reprocessing Plant (TRP) as well as research and development to support the decommissioning and environmental restoration of TEPCO's Fukushima Daiichi Nuclear Power station (1F).

Implementation of the latest techniques and technologies from across the globe, and from other industries, is an essential part of the NDA carrying out its mission safely while delivering value for the UK taxpayer.

The new cooperation arrangement, which was signed in London on 18 September, builds on the collaborative relationship with JAEA to allow the exchange of skills, knowledge, research, information and technology between the NDA Group and JAEA. The arrangement will expand on previous arrangements, made in 2008, to include the decommissioning of Monju and TRP.

The NDA has developed an international reputation for its progress in

tackling the radioactive hazards left as a legacy from the earliest days of the UK's nuclear industry.

The NDA's Strategy and Technology Director, Dr Adrian Simper, said:

The UK nuclear industry, its people, suppliers and its approach to decommissioning has a fantastic pedigree and the NDA is eager to share its expertise with other countries for mutual benefit in progressing our decommissioning and hazard reduction missions.

We have a long history of working closely alongside our Japanese counterparts – the continuation of this agreement is a natural progression of a long and productive relationship.
