

[Guidance: Available Coal Authority data sets](#)

'Use' means the use of Coal Authority data by persons or legal entities 'for commercial or non-commercial purposes within the public task for which the documents were produced'. Where available, data sets which are licenced for use will contain personal data.

'Re-use' means the use of Coal Authority data by persons or legal entities 'for commercial or non-commercial purposes other than the initial purpose within the public task for which the documents were produced' (as defined by the European Directive on the Re-Use of Public Sector Information 2015).

Data sets which are licenced for reuse will have all personal data removed.

[Form: Coal Authority Internal Data Re-Use Licence](#)

This licence applies to data supplied to businesses for internal purposes such as mining hazard and risk analysis, site investigations, asset management and hydrocarbon exploration companies

[Guidance: Coal Authority data set prices per royalty unit](#)

The Coal Authority licence applied to data supplied to third parties, including the Coal Authority's own mining reports business, for the purpose of creating mining search reports and related products as described by the Coal Authority's public task.

These royalty rates apply with effect from 1 December 2015 until further notice. Royalty units are payable per data set per third party report or product produced. Different royalty rates apply to third party 'Residential' and 'Commercial' reports.

Residential

A single unit residential property, either existing or currently being built, such as a single plot on a residential development site. For all residential reports a single royalty unit per data set per third party report produced will apply.

Commercial

Non-residential property, commercial or development sites, multiple unit residential sites, or non-residential sites. For all such sites up to a maximum of 25 hectares a single royalty unit per data set per report produced will apply.

All such sites greater than 25 hectares will be charged in whole multiple royalty units of 25 hectares, such as a site of 26 hectares will be charged at two royalty units per data set per report produced.

Guidance: Coal Authority data set prices per kilometre square

The Coal Authority licence applied to data supplied to businesses for internal purposes, such as mining hazard and risk analysis, asset management and hydrocarbon exploration companies.

All data sets will be subject to a minimum licence area of 1 kilometre squared. Discounts are available for licensing multiple data sets, larger areas and multi-year licences.

Form: Coal Authority Digital Data Use Licence

This licence applies to data supplied to third parties, including the Coal Authority's own mining reports business, for the purpose of creating mining search reports and related products as described in the Coal Authority's public task.
