

Notice: HR2 9SJ, Mr Philip Whittal and Mrs Jennifer Whittal trading as PSJ Whittal: environmental permit issued

The Environment Agency publish permits that they issue under the Industrial Emissions Directive (IED).

This decision includes the permit and decision document for:

- Operator name: Mr Philip Whittal and Mrs Jennifer Whittal trading as PSJ Whittal
- Installation name: Bowling Green Farm Poultry Unit
- Permit number: EPR/LP3433WG/A001

Notice: Jonathan Lewis and Lucy Lewis trading as J B Lewis & Son: application made to abstract water

The Environment Agency consult the public on certain applications for the abstraction and impoundment of water.

These notices explain:

- what the application is about
- which Environment Agency offices you can visit to see the application documents on the public register
- when you need to comment by

News story: Rules around removal of lost fishing gear clarified

The MMO is reviewing the marine licensing process to ensure that it is as efficient as possible, offers value for money and proportionately manages risks to the marine environment.

As part of this it has become aware that marine licensing guidance for recreational divers, in particular around removal of marine litter and fishing equipment, could be made clearer. The guidance provides interpretation on the relevant sections of the Marine and Coastal Access Act 2009.

The MMO has committed to working with relevant organisations and representative groups to review and improve the guidance.

In the meantime the MMO has confirmed that a lifting bag can be used to remove an object (including marine litter) up to 100kg provided the object has been there for less than 12 months. Beyond that a marine licence is required. It has also clarified that marine litter does not include abandoned, lost or discarded fishing gear (ALDFG).

Projects to remove ALDFG should be submitted to the MMO as a marine licensing application, which will allow appropriate consideration of the risks to the historic environment and nature conservation features.

In July 2017 the MMO [introduced a self-service approach](#) for marine licensing which may be relevant in these circumstances. This is making it quicker and easier for applicants in low-risk circumstances, while also enabling the MMO to reduce the licensing fee by more than half to £50. This process has already [been used in relation to fishing gear removal activities](#).

Press release: Improved flood warning service now covers more properties

The Environment Agency has improved its flood warning systems across West Yorkshire.

The updated service uses new modelling data, which gives more accurate alerts, helping communities to be better prepared for flooding.

As part of this latest update, four new communities near Meanwood Beck, Leeds, covering more than 3,000 properties are now included in the flood warning service. They are:

- Meanwood Beck at Headingley and Weetwood, including properties on and close to Weetwood Mill Lane, Stone Mill Way, Mill Pond Lane, Boothroyd Drive and Sugar Well Road.
- Meanwood Beck at Busingthorpe and Sheepscar, including properties on and close to Meanwood Road, Buslingthorpe Lane, Buslingthorpe Mills, Sackville Street and Barrack Street.
- Meanwood Beck at Sheepscar, Mabgate and Quarry Hill, including properties on and close to Sheepscar Street, Regent Street and Saint

Peter's Street.

- Gipton Beck and Gledhow Beck, including properties on and close to Roundhay Road, Markham Avenue and Gledhow Valley Road

Due to these changes, the Environment Agency is encouraging Leeds residents and local businesses to check if they are at risk of flooding and to sign up to receive the flood warning service so they can be aware of when flooding is possible.

Residents can find out if they are eligible to receive flood warnings, and then registering, by calling Floodline on 0345 988 1188, or by visiting www.gov.uk/check-flood-risk.

This website also includes information about how to be better prepared for flooding.

Dr Jenny Armstrong, Environment Agency flood resilience officer, said:

The becks in these communities can rise very quickly after heavy rain, so providing warnings can be difficult, but our new and improved warnings aim to alert the community in a timely manner, giving people more time to prepare, and to be aware of possible flooding so that they do not put themselves at danger.
