

Press release: Tamworth angler fined for obstruction after fishing illegally

On 7 March 2017 at Nuneaton Magistrates' Court, Michael Hawkeswood of Ealingham, Wilnecote was fined £286 for wilfully obstructing a constable in the execution of his duty, with costs of £172 and a victim surcharge of £30 imposed after a prosecution by the Environment Agency.

Mr Hawkeswood also faced charges of fishing without a rod licence, failing to state his name when addressed by an Environment Agency enforcement officer and using behaviour that is likely to cause harassment, alarm or distress. Mr Hawkeswood received no additional penalty for these charges.

The offences took place on 21 August 2016 at Pooley Park Pools, Polesworth. Mr Hawkeswood was convicted in his absence.

Andrew Eardley of the Environment Agency said:

The majority of anglers fish legally and purchase a rod licence. With an annual licence costing £30 it seems ridiculous that anglers risk a significant fine.

The minority of anglers that fail to buy a rod licence are cheating their fellow anglers and the future of the sport. Rod licence cheats risk a criminal conviction, a significant fine and could lose their fishing equipment.

It's good to see that the courts take instances of obstruction against enforcement officers seriously and that offenders are prosecuted.

Money from rod licence sales is invested in England's fisheries and is used to fund a wide range of projects to improve facilities for anglers including protecting stocks from illegal fishing, pollution and disease; restoring fish stocks through re-stocking; eradicating invasive species; and fish habitat improvements. Rod licence money is also used to fund the Angling Trust to provide information about fishing and to encourage participation in the sport.

You need a valid Environment Agency Rod Licence to fish for salmon, trout, freshwater fish, smelt or eel in England. Buying a rod licence is easy, simply visit www.gov.uk/fishing-licences/buy-a-fishing-licence.

Anyone witnessing illegal fishing incidents in progress can report it directly to the Environment Agency hotline, 0800 80 70 60. Information on illegal fishing and environmental crime can also be reported anonymously to Crime stoppers on 0800 555 111.

[Transparency data: HMNB Devonport maintenance dredging variation](#)

On 6 March 2017 the Marine Management Organisation (MMO) announced a new disposal site was open for marine licence applications for the disposal of dredged material. The MMO has now varied the Defence Infrastructure Organisation's (DIO) licence, which licences the navigational maintenance dredging in and adjacent to Her Majesty's Naval Base (HMNB) Devonport, Plymouth.

The variation has changed the disposal site from Rame Head South (PL031) to Plymouth Deep (PL035). Due to increased regulatory burden surrounding the Rame Head South disposal site and in light of the continued requirement for dredging and disposal operations, the MMO has been working with the main users of the site in leading a disposal site characterisation study to identify an optimal, sustainable alternative site for long-term dredged material disposal operations within the River Tamar and Plymouth Sound area. Further information on the [South West Disposal Site Characterisation Project](#).

The marine licence for the maintenance dredge at HMNB Devonport allows DIO to complete one maintenance dredge campaign of the dockyard's critical areas between now and March 2017. The dredge is required in order to maintain the operational capacity of the Naval Base.

The MMO has now determined the application and a copy of the licence and the supporting assessments have been attached for reference.

Further Information

All marine licence applications are available from the [marine licensing public register](#).

[News story: Licence variation for South West disposal](#)

This follows the announcement that the new disposal site is open for marine licence applications for the disposal of dredged material.

The Defence Infrastructure Organisation's (DIO) licence has now been [varied to change disposal activities to Plymouth Deep](#). The variation changed the disposal site from Rame Head and conditions referencing Rame Head South have been amended.

No changes to the dredging methodology have been made. The marine licence for the maintenance dredge at HMNB Devonport allows DIO to complete one maintenance dredge campaign of the dockyard's critical areas between now and the end of March 2017.

[Press release: East coast surge prompts people to sign up for flood warnings](#)

More than 2,000 people in Lincolnshire and Northamptonshire signed up for flood warnings in just two days when flooding threatened the east coast in January.

The number of local registrations jumped by 7 per cent, Environment Agency figures have shown.

Nearly all the new sign-ups occurred on Thursday 12th and Friday 13th January 2017 when forecasters predicted that high tides combined with weather conditions could cause widespread coastal flooding.

Fortunately the event passed without flooding any homes in either county, but the Environment Agency is reminding everyone to sign up, as figures show that only 18 per cent of the total number of properties at risk in the area are fully registered.

Anyone can check whether they are at risk and register for warnings by calling Floodline on 0345 988 1188. You can also make sure your contact details are up-to-date and choose how you'd prefer to be contacted – by mobile, text, landline or email – if flooding was expected.

Ben Thornely, Area Incident Manager, said:

We're glad to see people listened to our advice during the surge. It means another 2,000 families will have early warning should flooding be expected – early warning that could give them extra time to protect themselves and their homes.

That's why we're encouraging everyone to sign up now – before the next surge or storm.

The service is free, and it's the most simple, specific and timely way to find out when you're at risk. You can tell us how best to reach you with vital information that's updated every 15 minutes.

All it takes is a simple phone call or you can visit www.gov.uk/flood to find out more.

Notes for editors:

- In January, the amount of fully-registered properties increased by 7 per cent, from 28,500 to 30,500.
- However, only 18% (30,500) of the 169,500 of properties at flood risk in Lincolnshire and Northamptonshire are registered with Floodline.
- People who proactively contact Floodline to provide their contact details and preferred method of contact are considered to be fully-registered.
