

Environmental management services company fined after worker fatally crushed

An environmental management services company has been fined after a worker was fatally injured by a reversing vehicle.

Northampton Crown Court heard how on 8 April 2016, an employee of Enterprise Managed Services Limited was fatally crushed when he tripped and fell under the wheels of the refuse lorry in Ashby Road, Daventry whilst on a routine collection of recyclable refuse.

An investigation by the Health and Safety Executive (HSE) into the incident found that a suitable and sufficient risk assessment had not been carried out for the collection route and there was a failure to adequately supervise the Daventry waste and recycling round.

Enterprise Managed Services Limited of the Chancery Exchange, Funnival Street, London pleaded guilty to breaching Section 3(1) of the Health & Safety at Work etc Act 1974. They have been fined £1,020,000 and ordered to pay costs of £60,476.

Speaking after the hearing, HSE inspector Michelle Morrison said: "This tragic incident led to the death of a young man, which could so easily have been avoided by simply carrying out a suitable and sufficient route risk assessment and identifying where reversing could be avoided.

"Those in control of workplaces are responsible for identifying and implementing suitable methods of working to reduce the need for vehicle reversing.

"Companies should be aware that HSE will not hesitate to take appropriate enforcement action against those that fall below the required standards".

Notes to Editors:

1. The Health and Safety Executive (HSE) is Britain's national regulator for workplace health and safety. We prevent work-related death, injury and ill health through regulatory actions that range from influencing behaviours across whole industry sectors through to targeted interventions on individual businesses. These activities are supported by globally recognised scientific expertise. www.hse.gov.uk
