

EPD to launch 2022-23 Natural Christmas Trees Recycling Programme

To encourage recycling and upcycling of yard waste in the community, the Environmental Protection Department (EPD) today (December 21) called on members of the public and commercial and industrial (C&I) organisations to recycle natural Christmas trees (NCTs) intended for disposal under the 2022-23 NCTs Recycling Programme. The programme arrangements are as follows:

Collection period: January 4 to 8, 2023 (five days)

Collection points: The following Central Collection Point and District Collection Points

14. GREEN@ISLANDS	1 Chung Mun Road, Tung Chung	2499 2308	
15. GREEN@SAI KUNG	3 Po Lam Lane, Tseung Kwan O	2727 7330	

Note: If members of the public and C&I organisations have to recycle NCTs before January 4 or during January 9 to 13 and January 16 to 21, 2023, please deliver them to Y·PARK during operating hours (9am to 6pm, Monday to Saturday). Please note that Y·PARK will not receive any yard waste on January 14 and 15, 2023.

An EPD spokesman said to facilitate public participation, the collection period will be extended from four days last year to five days this year. The NCTs collected and other yard waste will be turned into various recyclable products at Y·PARK to facilitate their reuse, recycling or upcycling into decoration, wooden furniture, wood art products and more.

The programme is limited to the recycling of NCTs, and all lighting, plastic stands, decorations and tape on the NCTs should be removed before

delivery to facilitate the subsequent recycling processes. The public are also encouraged to replant small potted plants such as poinsettias, and keep artificial Christmas trees and other festival decorations for reuse to help reduce waste and conserve resources.

An e-certificate will be issued to the participants who deliver NCTs to the CCP or the Recycling Stations for recycling. Participants will also receive a gift upon delivery of NCTs to the Recycling Stations while stocks last. For details of the NCTs Recycling Programme, please visit the Hong Kong Waste Reduction website at www.wastereduction.gov.hk/en/natural-christmas-trees-recycling-programme-2022.html.

The EPD also welcomes other organisations and associations to provide recycling services for NCTs to help engage the public and C&I organisations and enhance waste reduction efforts for all.
