

ESMA updates equity derivatives, equity and equity-like instruments' transitional transparency calculations for MiFID II/ MiFIR

The update relates to the transitional transparency calculations for:

- equity derivatives ([equity derivatives I](#)) ;
- equity and equity-like instruments ([TTC](#)); and
- [tick size band assessment](#).

Further information can be found in section E of the [FAQ document](#). Trading venues are expected to apply the new results from 13 August 2018.
