

[#EURegionsWeek 2018 consultation on session proposals](#)

188 partners' session proposals have been received for the #EURegionsWeek 2018: thank you for your growing interest in the event! An online consultation will allow the event community to indicate their preferences for the sessions proposed, from 16 to 27 April.

The organisers would like to design the #EURegionsWeek together with all participants, partners and stakeholders of the event, in a bottom-up approach. The consultation will open on Monday 16 April and available on [the event website](#).

Get ready to tell us your preferred sessions proposals and to create with us a great event.

Make the event yours and be part of the preparation phase!

The online consultation is not a selection process as in parallel, the organisers will assess and select the sessions, based on the quality of the proposals and on the criteria of the event guidelines. Even if a session is part of the rating process, please note that this does not mean that the session is selected for the official programme. #
