<u>Eurostat monitoring report – How has</u> <u>the EU progressed towards the</u> <u>Sustainable Development Goals?</u>

Sustainable development aims to achieve a continuous improvement in citizens' quality of life and well-being, without compromising the well-being of future generations. This involves the pursuit of economic progress, while safeguarding the natural environment and promoting social justice. For these reasons, sustainable development is a fundamental and overarching objective of the European Union and the progress towards the goals agreed at UN level is regularly monitored and reported.
