

Financial results for the five months ended August 31, 2019

The Government announced today (September 30) its financial results for the five months ended August 31, 2019.

Expenditure for the period April to August 2019 amounted to HK\$214 billion and revenue HK\$165.7 billion, resulting in a cumulative year-to-date deficit of HK\$42 billion after receipt of net proceeds of HK\$7.8 billion from issuance of green bonds under the Government Green Bond Programme (Green Bond) and repayment of institutional notes of HK\$1.5 billion.

A government spokesperson said that the cumulative year-to-date deficit for the period was mainly due to the fact that some major types of revenue including salaries and profits taxes are mostly received towards the end of a financial year.

The fiscal reserves stood at HK\$1,128.9 billion as at August 31, 2019.

Detailed figures are shown in Tables 1 and 2.
