

Five additional community testing centres to commence service next week

The Government will set up five additional community testing centres for gradual commencement of service next week. The five new community testing centres will be located at Leighton Hill Community Hall in Wan Chai, Morse Park Sports Centre in Wong Tai Sin, Pak Tin Community Hall in Sham Shui Po, Tai Wo Sports Centre in Tai Po and Wai Tsuen Sports Centre in Tsuen Wan.

The existing nine community testing centres will continue to provide services. The nine centres are located at Quarry Bay Community Hall in Eastern District, Henry G Leong Yaumatei Community Centre, Lek Yuen Community Hall in Sha Tin, Yuen Long Town East Community Hall, Lai King Community Hall, Wo Hing Community Hall in Fanling, Siu Lun Community Hall in Tuen Mun, Hang Hau Community Hall and Yau Tong Community Hall.

The community testing centres provide self-paid testing services for the public at a more affordable price to serve general community or private purposes such as certification for travelling or work. The price of testing services is capped at \$240, with payment to be made in accordance with the arrangement of testing contractors. The Government would also, as and when necessary (such as in situations with higher risks of community transmission), conduct testing for target groups, specified persons or other members of the public at the testing centres for public health reasons on a needs basis, and separate announcements will be made at that time. The five additional testing centres will operate for an initial period of three months, which may be extended for another three months depending on the situation.

A Government spokesman said, "The local epidemic situation is worsening rapidly. In order to identify cases in the community as early as possible to help cut the transmission chains, specified persons are required to undergo compulsory testing on a mandatory basis. On the other hand, we also encourage members of the public to undergo testing on an obligatory basis and a voluntary basis. Community testing centres provide services not only for those who undergo testing voluntarily at a more affordable price, but also for persons who are subject to compulsory testing, thus enabling the Government to meet unexpected testing demand in a more efficient and flexible manner with a view to strengthening disease prevention and control in Hong Kong. Coupled with the nine community testing centres which have earlier commenced service, there will be a total of 14 community testing centres across the territory providing relevant testing services for the public."

The community testing centres would provide specimen collection services (using combined nasal and throat swabs) and COVID-19 testing services for all asymptomatic individuals holding valid Hong Kong identity cards, Hong Kong birth certificates or other valid identity documents (including Hong Kong residents and non-Hong Kong residents). The centres are open daily from 8am

to 1.30pm and from 2.30pm to 8pm. Deep cleaning and disinfection would be conducted when they close in the afternoon and at night.

Booking and walk-in services are available. Members of the public only need to provide simple personal information (including their name, number of valid identity document and phone number) on the 24-hour booking system (www.communitytest.gov.hk) to select the testing centre and time slot. The testing centres would accord priority to provide service for individuals with advance bookings. Members of the public may also call the testing centres for enquiries on the availability of bookings and walk-in quotas before visiting the centres. The service commencement date and hotlines of the five additional community testing centres, and the hotlines of the existing nine community testing centres are at the Annex.

Participants with a negative result will receive a test report for a COVID-19 nucleic acid test within 24 hours. Those who test positive as confirmed by the Department of Health (DH) will receive calls from the DH to arrange for isolation and treatment in public hospitals in accordance with established procedures.

In addition, to further facilitate members of the public to undergo testing, the Government is now preparing for opening another five community testing centres to be located at Shek Tong Tsui Sports Centre, To Kwa Wan Sports Centre, Ngau Tau Kok Road Sports Centre, Ma On Shan Sports Centre and Tin Ching Community Hall in Tin Shui Wai. The preparation work for the above five community testing centres is ongoing, and the Government will implement the programme as soon as possible and further announce operational details.

The Government reminds the public that they can undergo COVID-19 testing through various means. For details on other testing means than community testing centres, please refer to the following webpage: www.coronavirus.gov.hk/eng/early-testing.html.
