

# Food recycling – Perth Road Lanes – further update

I have details of the locations of communal on-street recycling units in the area so do please contact me if you wish further information on this ([recycling@frasermacpherson.org.uk](mailto:recycling@frasermacpherson.org.uk)).

Last week, I attended a briefing for councillors about the proposed final extensions of all other household recycling across the city (paper, cardboard, metals, plastics, etc) and this will take place in two phases – commencing April and June. The above area is the only part of the West End left to have this extension (the rest of the West End being covered from 2015) and I will update with further details on this soon.
