

Free and unique 360-degree “Dance Dome” coming to Hong Kong Cultural Centre Piazza

"Dance Dome", an innovative film show by 4π Productions and Coreo Cymru (the United Kingdom), will hold a series of performances in October at Piazza B of the Hong Kong Cultural Centre.

Presented by the Leisure and Cultural Services Department, "Dance Dome" is a highly visual 360-degree cinema experience that surrounds its audiences with cutting-edge contemporary dance. Created by an international film crew, the show blurs the boundaries between movement, digital technology and cinema, wrapping dance around the viewer to create an extraordinary immersive experience.

"Dance Dome" features three short films: "The Beautiful", "The Sublime" and "Liminality", which span dance, digital special effects and images. All the films are dynamic and stimulating, and each creates for the audience a special sense of wonder.
