

General out-patient clinic service arrangements on National Day

The following is issued on behalf of the Hospital Authority:

The Hospital Authority (HA) spokesman today (September 27) announced that 14 general out-patient clinics (GOPCs) will provide public holiday GOPC services on National Day (October 1) (see table below). Patients may book an appointment either through the telephone appointment system or the "Book GOPC" function of the HA Go mobile app.

The spokesman reminded members of the public that they should stay vigilant to personal and environmental hygiene during the public holiday to avoid spreading diseases. Members of the public who develop respiratory symptoms should wear a mask and seek medical advice promptly. Apart from GOPCs of the HA, patients may also consider attending consultations by private family doctors. To choose a suitable family doctor and related clinic service, the public can browse the Primary Care Directory of the Health Bureau at www.pcdirectory.gov.hk.

Moreover, the HA is currently providing seasonal influenza vaccinations to eligible persons at public hospitals and out-patient clinics. The spokesman said that eligible patients can receive vaccinations at the time of their scheduled follow-up appointments at clinics. Patients with a distant follow-up appointment date may visit or contact the respective clinics for necessary arrangements. The spokesman emphasised, "High-risk individuals such as chronic disease patients, the elderly and children may develop severe complications after an influenza infection, leading to serious illness or death. Vaccinations can enhance immunity against influenza and greatly reduce the risk of serious illness or death from infection. Protection will develop in about two to four weeks after inoculation and last for at least six months, which would protect members of the public during the winter influenza season. Members of the public should receive seasonal influenza vaccinations as soon as possible."

GOPC service arrangements on National Day (October 1)
