

Get local support – a useful new resource for vulnerable people

GetLocalSupport.org is connecting vulnerable people with volunteers approved by volunteer organisations.

It is currently in a test phase and although it will be rolled out across the country in time, it is currently offering support only to vulnerable people based in Dundee. It is being supported by Dundee Volunteer and Voluntary Action.

Some of the things people can request are :

- + A conversation with someone
- + Pick up shopping
- + Pick up a prescription
- + Walk my dog
- + Digital skills assistance

You can read more at www.GetLocalSupport.org and make a request for assistance there too.
