

# Getting Clear on Student Finance

Students in England still have time to get their finances sorted for the 19/20 academic year. That's the message from the Student Loans Company (SLC) as Clearing ramps up.

Thousands of young people across England have now received their exam results and last year 55,000 people applied for student finance once they had received their exam results.

SLC is reminding all students to make sure they get their student finance in place and is offering some top tips to students going through Clearing.

Top tips for making the application process as smooth as possible include:

There's also a dedicated Clearing page with lots of useful information on Gov.UK at the following link: <https://studentfinance.campaign.gov.uk/>

SLC's Director of Operations, Derek Ross said:

"It is important that Students complete their finance applications as soon as possible to ensure that their first payments are received at the start of term. The sooner they submit their application the sooner we can get their student finance in place.

"Those students who have already applied for student finance but want to change their course, university or college should update their details on their online account at [www.gov.uk/student-finance](http://www.gov.uk/student-finance)"

Students who have still to apply should do so as soon as possible as it can take six weeks to process an application. Student Finance England will make an initial assessment so you have some money as close to the start of your course as possible.

The fastest way to apply is by registering for an online account and submitting an application at: [www.gov.uk/student-finance](http://www.gov.uk/student-finance)

We're also hosting a live Clearing and Adjustment Facebook Q&A from 2pm on 20 August 2019: [www.facebook.com/SFEngland](http://www.facebook.com/SFEngland)

To help you sort out your student finance, SFE experts will also be available online Monday to Friday 9am to 5pm and Saturday 9am to 4pm to answer your questions: [Twitter/SF\\_England](https://twitter.com/SF_England) and [Facebook/SFEngland](http://www.facebook.com/SFEngland)
