

## Getting things done – Balgay Park #dundeewestend

Residents contacted us about the damage to the entrance pillar to Balgay Park and Hill at the Glamis Road side of the park. This was caused by a vehicle some weeks ago.

We asked our local environment manager for an update on progress with repairs and have received this helpful response :

**“I can confirm that we are aware of damage that has occurred at the entrance of Balgay Cemetery Glamis Road, and this damage has been assessed by the Area Officer.**

The Area Officer is currently making arrangements with department colleagues to remove the damage in the short term with a view to arranging a full repair of the pillar.”
