

Getting things done – Logie Avenue #dundeewestend

Having had complaints that some trees along Logie Avenue are overgrown (one resident indicated they are “almost touching cars as they pass by”), I took this up with the City Council.

The council’s Assistant Forestry Officer has responded positively as follows :

“I have inspected the trees the length of Logie Ave as requested.

A number of these mature trees do have low canopies obstructing headroom for pedestrians, vehicles, sight lines and grass cutting.

In the coming months I will include the crown lifting and crown balancing of all the offending trees into our mid / late winter work programme.”
