

Getting things done – Magdalen Yard Road

Residents remarked to me how pleased they are that the council's unadopted pavements programme is now upgrading the muddy path round the north edge of Magdalen Green to create a proper tarred footway.

As vehicles are unable to be parked in a number short sections of the road during the works, I have asked the council's Roads Maintenance Partnership to take the opportunity to properly clean out the road edges (months of compressed leaves and dirt!) and unblock the drains – see right :
