

## Getting things done – Riverside Approach #dundeewestend

Residents have raised with us the very poor state of the railings in Riverside Approach around the rail bridge there.

The City Engineer advises us that :

**“The wrought/cast iron sections are likely to be Dundee City Council’s. The timber sections facing the Tay Rail Bridge are Network Rail’s.”**

His team has kindly agreed to approach Community Justice Services to hopefully get a project put together to have the railings brought back to standard.
