

Getting things done – steps off Riverside Drive #dundeewestend

A resident recently wrote to me regarding the steps that run from the west side of Riverside Drive near the bridge over the rail line down from the Botanic Garden, writing :

“We regularly use the steps down to Riverside from the rail bridge down from Newhall Gardens.

They are becoming quite dangerous when wet and also the foliage is really overgrown.”

I have raised these concerns with the local environment manager asking for this to be resolved.
