

Getting things done – Victoria Park #dundeewestend

Recently, residents have asked me when the hedging at Victoria Park will be trimmed.

I took this up with the City Council and the Environmental Management Area Officer has advised :

“... the hedge cutting with tractor mounted flail has commenced and is working its way across town east to west and this hedge is programmed in to be done and should be done in the next few weeks.

As you will be aware we have not been able to carry out our normal program of works at the usual time of year due to the covid-19 situation and most works have been set back by about a month.”

However, I am pleased to advise that the trimming has now been carried out and residents have remarked what a neat job it is too.
