

# Government enforces “restriction-testing declaration” and compulsory testing notice in respect of specified “restricted area” in Choi Yuk House, Choi Yuen Estate, Sheung Shui

The Government yesterday (March 20) exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) to make a "restriction-testing declaration" effective from 4pm yesterday, under which people (hereafter referred to as "persons subject to compulsory testing") within the specified "restricted area" in Sheung Shui (i.e. Choi Yuk House, Choi Yuen Estate, excluding non-residential units located on the ground floor and podium floors) were required to stay in their premises and undergo compulsory testing. Persons subject to compulsory testing are required to stay in their premises until all such persons identified in the "restricted area" have undergone testing and the test results are mostly ascertained.

In addition, the Government issued a compulsory testing notice yesterday to any person who had been present at the above building for more than two hours from March 7 to March 20, 2022 to undergo compulsory testing on or before March 22, 2022 even if they were not present in the "restricted area" at the time when the declaration took effect. The Government finished the compulsory testing exercise at around 1pm today (March 21) and is now carrying out enforcement actions in the "restricted area" to verify that all people in the "restricted area" have undergone compulsory testing. The Government will further announce the revocation time of the declaration.

Starting from around 1pm today, persons in the "restricted area" in Choi Yuk House, Choi Yuen Estate, Sheung Shui who have undergone testing and are able to present SMS notifications with negative test results as proof of having undergone testing may leave the "restricted area" through the designated exit after providing personal information to a prescribed officer.

The Government set up temporary specimen collection stations in the "restricted area" yesterday and requested persons subject to compulsory testing to collect combined nasal and throat swab samples at the stations to undergo a COVID-19 virus test before 9pm yesterday. 1 177 people had undergone testing. Amongst them, 122 cases tested preliminarily positive and 28 cases tested indeterminate were found. The Centre for Health Protection of the Department of Health will arrange to follow up.

The Government provided food packs for persons subject to compulsory testing, so as to facilitate the meal arrangements of persons subject to compulsory testing. Rapid antigen test kits, as well as anti-epidemic

proprietary Chinese medicines supplied by the Central People's Government, were also provided to persons subject to compulsory testing to help them fight against the virus.

Moreover, the Government also assigned staff to visit 816 households in the "restricted area", among which 76 households did not answer the door. The Government will take measures to follow up.

The Government reiterates that enforcement actions will be taken seriously. Any person who fails to present an SMS notification with a test result as proof of having undergone testing breaches the compulsory testing notice and may be liable to a fine of \$10,000. The person will also be issued with a compulsory testing order, requiring him or her to undergo testing within a specified time frame. Failure to comply with the compulsory testing order or the "restriction-testing declaration" is an offence and the offender may be liable to a fine of level 4 (\$25,000) and imprisonment for six months.
