

Government extends most social distancing measures

In view of the very dire epidemic situation in Hong Kong, the Government announced on February 22 the tightening of social distancing measures which would be maintained till April 20. The Government announced today (March 8) the gazettal of the social distancing measures to extend most of them in accordance with the public health emergency regulations under the Prevention and Control of Disease Ordinance, with the next 14-day cycle taking effect from March 10 to March 23.

For catering premises and scheduled premises regulated under the Prevention and Control of Disease (Requirements and Directions) (Business and Premises) Regulation (Cap. 599F), the existing social distancing measures will be extended for two weeks. In view of citizens' actual demand for relevant services and the smooth implementation of the [Vaccine Pass arrangement](#), barber shops or hair salons will be allowed to reopen with the full implementation of Vaccine Pass requirements. All persons who enter or are present at the relevant premises must have received at least one dose of COVID-19 vaccine, and customers must use "LeaveHomeSafe". Staff members and customers alike must wear a mask at all times.

Other existing measures, such as allowing no more than two persons per group gathering in a public place, prohibition of multi-household gatherings at private premises involving more than two households, mask-wearing requirement and cessation of mass events to avoid group gatherings, will continue to be implemented.

Specific measures (details of those restrictions under Cap. 599F in Annex 1) to be in force during the period from March 10 to March 23 include:

(I) Catering business

(1) From 6pm to 4.59am of the subsequent day, save for specific premises (details in Annex 2), a person responsible for carrying on a catering business must continue to cease selling or supplying food or drink for consumption on the premises of the business, and close any premises or part of the premises (whichever is applicable) on which food or drink is sold or supplied by the business for consumption on the premises. The premises concerned may still sell or supply food and/or drink for takeaway services and deliveries. A person responsible for carrying on a catering business is also required to put up a notice at the entrance to the catering premises to remind customers that food or drink should not be consumed in areas adjacent to the catering premises. All catering premises must continue to implement the Vaccine Pass arrangement, under which all persons entering catering premises must comply with the vaccination requirement save under exempted situations (see details in the [relevant press release on implementation arrangements for Vaccine Pass](#)). The maximum number of persons per table is two, and no banquet will be allowed.

Persons who participate in a prohibited group gathering may discharge liability for the offence by paying a fixed penalty at \$5,000.

A Government spokesperson said, "The epidemic situation of Hong Kong remains dire. It is necessary for the Government to maintain stringent social distancing measures to contain the risk of virus transmission in the community. We hope that different sectors of our society may join forces in anti-epidemic efforts and protect the health of every citizen in Hong Kong together."
