

Government gazettes compulsory testing notice

The Government has exercised the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) and published in the Gazette a compulsory testing notice, which requires any person who had been present at 12 specified premises during the specified period (persons subject to compulsory testing) to undergo a COVID-19 nucleic acid test.

Eleven buildings with sewage samples tested positive were included in the compulsory testing notice today (January 30). In addition, since a number of confirmed cases were found at the relevant construction sites for the Expansion of Hong Kong International Airport into a Three-runway System over a short period of time, relevant persons who had been to the sites also have to undergo compulsory testing.

Details of the compulsory testing notice are as follows:

1. Any person who had been present at any specified premises listed in Annex 1 for more than two hours at any time during the period from January 17 to January 30, 2021 (including but not limited to visitors, residents and workers), have to undergo testing by February 2, 2021. If persons subject to compulsory testing have previously undergone testing between January 28 and January 30, 2021, they would be taken to have complied with the requirements set out in the compulsory testing notice.
2. Any person who had worked or had been present for more than two hours at the construction sites for contract number 3206-Main Reclamation Works and contract number 3303-Third Runway and Associated Works of the Expansion of Hong Kong International Airport into a Three-runway System at any time during the period from January 17 to January 30, 2021, have to undergo testing by February 2, 2021. If persons subject to compulsory testing have previously undergone testing between January 28 and January 30, 2021, they would be taken to have complied with the requirements set out in the compulsory testing notice.

The Government will set up mobile specimen collection stations at Sycamore Playground in Mong Kok and Lai On Estate in Sham Shui Po tomorrow (January 31). The service period of the mobile specimen collection station at Man Wui Street, Ferry Point in Jordan will also be extended to February 1, 2021 (Monday). The opening dates and operating hours of the mobile specimen collection stations in various districts providing free COVID-19 nucleic acid testing services for the general public are stated in Annex 2. Apart from mobile specimen collection stations, persons subject to compulsory testing can also choose to attend any of the community testing centres in all districts to receive testing free of charge.

Persons subject to compulsory testing may choose to undergo testing via the following routes:

1. To visit any of the mobile specimen collection stations (see the list and target groups (if applicable) at www.coronavirus.gov.hk/eng/early-testing.html) for testing;
2. To attend any of the community testing centres (see the list at www.communitytest.gov.hk/en/);
3. To obtain a deep throat saliva specimen collection pack from any of the 121 post offices, vending machines set up at 20 MTR stations or 47 designated general outpatient clinics (GOPCs) of the Hospital Authority and return the specimen to one of the designated specimen collection points (see the distribution points and times, and the specimen collection points and times, at www.coronavirus.gov.hk/eng/early-testing.html);
4. To undergo testing at any of the GOPCs of the Hospital Authority as instructed by a medical professional of the Hospital Authority;
5. To self-arrange testing provided by private laboratories which are recognised by the Department of Health (DH) and can issue SMS notifications in respect of test results (see the list at www.coronavirus.gov.hk/pdf/List_of_recognised_laboratories RTPCR.pdf); or
6. To use a specimen bottle distributed to the relevant specified premises by the Centre for Health Protection (if applicable), and return the specimen bottle with the sample collected as per relevant guidelines.

A spokesman for the Food and Health Bureau cautioned that testing received at accident and emergency departments of the Hospital Authority or during hospital stays, or testing provided by private laboratories which cannot issue SMS notifications in respect of test results, does not comply with the requirements of the aforementioned compulsory testing notice.

"If persons subject to compulsory testing have symptoms, they should seek medical attention immediately and undergo testing as instructed by a medical professional. They should not attend the mobile specimen collection stations or the community testing centres."

Persons subject to compulsory testing must keep the SMS notification containing result of the test for checking by a law enforcement officer when the officer requires the persons to provide information about their undergoing the specified test.

Furthermore, persons subject to testing under the compulsory testing notices should, as far as reasonably practicable, take appropriate personal disease prevention measures including wearing a mask and maintaining hand hygiene, and, unless for the purpose of undergoing the specified test, stay at their place of residence and avoid going out until the test result is ascertained as far as possible.

Any enquiries on compulsory testing arrangements may be addressed to the hotline at 6275 6901, which operates daily from 9am to 6pm. If persons subject to compulsory testing plan to conduct testing at any of the community testing centres, they can check the centre's appointment status in advance.

The hotlines of the community testing centres are available at www.communitytest.gov.hk/en/info/.

The Government will continue to trace possibly infected persons who had been to the relevant premises, and seriously verify whether they had complied with the testing notices. Any person who fails to comply with the testing notices commits an offence and may be fined a fixed penalty of \$5,000. The person would also be issued with a compulsory testing order requiring him or her to undergo testing within a specified time frame. Failure to comply with the order is an offence and the offender would be liable to a fine at level 4 (\$25,000) and imprisonment for six months.

Relevant officers of different government departments are empowered to perform certain functions under the relevant Regulations under the Prevention and Control of Disease Ordinance (Cap. 599), including requesting individuals to provide information and assistance when necessary. Any person who fails to comply with the relevant request commits an offence and would be liable to a fine at level 3 (\$10,000). Collection and use of any personal data for conducting COVID-19 tests must meet the requirements under the Personal Data (Privacy) Ordinance (Cap. 486). Government departments or testing service providers which handle the relevant information may provide the data to DH or other relevant departments for anti-epidemic purpose as necessary. The workflow does not involve the provision of any personal data to organisations or persons outside Hong Kong.

The spokesman said, "The Government urges all individuals who are in doubt about their own health conditions, or individuals with infection risks (such as individuals who visited places with epidemic outbreaks or contacted confirmed cases), to undergo testing promptly for early identification of infected persons."
