

Government reminder for departing passengers through Shenzhen Bay Control Point

A spokesman for the Government of the Hong Kong Special Administrative Region (HKSAR) announced today (February 10) that as there is a significant number of passengers currently at the departure hall of Shenzhen Bay Control Point, members of the public should consider adjusting their travel plans so as to prevent crowd gathering.

Meanwhile, all passengers who are entering Shenzhen would be required to present a valid proof of a negative COVID-19 nucleic acid test result issued within 24 hours by one of the testing institutions recognised by Governments of Hong Kong and Guangdong; as well as a hotel reservation confirmation for the 14-day period of centralised quarantine and medical surveillance after their entry into Shenzhen through the Shenzhen Municipal Government quarantine hotel online reservation system, otherwise they will not be allowed to enter Shenzhen.

The Government of HKSAR urged that the passengers not fulfilling the above mentioned requirements should not go to Shenzhen Bay Control Point.
